28 March 1957

MEMORANDUM FOR: Secretary of Utilization Advisory Board

SUBJECT : Use of TALENT Material

ATTACHMENT : Sanitized Report and Sketch

1. Permission is hereby requested to blend TALENT System Material with existing sources and other material for immediate operational use. Some specific points of information taken from the TALENT System Material does not in fact exist from other sources now available; however, a review of all mapping and applicable reports shows that they could have supplied all this information. It is not, therefore, directly attributable to the TALENT source.

2. The sanitized report attached includes a sketch. This sketch is based upon the Red Army General Staff 1:50,000 maps covering the area concerned.

3. It is intended to pass the sanitized report and the sanitized sketch outside the TALENT Control System to case officers of the SR/Division.
